Welcome Message

Dear colleagues,

We cordially welcome you all to our congress on november 7th and 8th, in one of the most magical location in Tunisia Djerba, island of dreams.

The main topics of the scientific program are upper cervical spine pathology, pediatric neurosurgery and complications in neurosurgery.

It is an excellent opportunity for all neurosurgeons to expand their knowledge and to share their own work.

We thank our international guests speakers, who will generously share their experiences.

Finally, we will make all our efforts to do a memorable scientific and social event.

Looking forward to see you all in the sweet Djerba.

**Mehdi Darmoul
